

TOP GEAR

GIBSON SG SUPRA NOT YOUR AVERAGE SG

When **Gibson** introduced their 2013 **SG Supra**, they blithely broke nearly every rule in the book. This SG features an all maple body and a special selection of pickups. A trio of '57 Classic humbuckers equipped with a special TogPot switching system delivers everything from classic PAF tones to in-between tones that are out of reach for a traditional SG. There's also a Fishman Piezo Power Bridge onboard, which can be used to blend in rich acoustic tones.
