## TAYLOR SPRING 2013 LIMITED 400 SERIES GRANADILLO GRANDEUR

Bob Taylor's passion for exotic tonewoods is one of the defining characteristics of his company's guitar lineup, which has pioneered the use of Hawaiian koa, cocobolo, striped ebony and other varieties. For the **Spring 2013 Limited 400 Series, Taylor** turned to granadillo for a unique look and sound. A granadillo back and sides topped with a Sitka spruce top voices these guitars with bold bass and sparkling treble, but with added sustain and projection that makes them an ideal choice for any singer-songwriter.

—Phil Selman
