ELECTRO-VOICE ZLX-15P POWERED LOUDSPEAKER

Loud and clear

The Electro-Voice ZLX-15P powered loudspeaker delivers outstanding definition at even the most extreme volume. The DSP engine is easy to use thanks to a single push-and-turn controller. The music, live, speech and club modes can be fine-tuned to different environments via the independent bass and treble controls. Powered by 1,000 watts of Class D power, the ZLX-15P delivers outstanding bass response, rich mids, and crisp highs. The ZLX-15P also offers outstanding off-axis projection, both in mains and monitor mode.
