## LINE 6 SONIC PORT POD TONE FOR YOUR PHONE

The **Line 6 Sonic Port** turns nearly any iPhone, iPad or iPod Touch into a tone machine driven by real POD guitar effects. The Mobile POD app—which requires the Sonic Port—offers up more than 10,000 killer guitar tones featuring 32 amp models, 16 cabinets, and 16 classic stompbox effects. The Sonic Port also works with many other iOS apps, and even unlocks POD tones in the popular Jammit backing track app. And with connections for headphones, monitors and more, there are countless applications.
