AUDIO-TECHNICA AT2020USB+

Pristine performance and USB connectivity

The Audio-Technica AT2020USB+ Cardioid Condenser USB Microphone combines the crystalline sound of the award-winning AT2020 with a host of features that make USB-based recording a treat. Perfect for tracking music and podcasts alike, the powered headphone circuit delivers crisp audio and features an external volume wheel. The Mix wheel makes it a snap to dial in the perfect blend between the mic and any backing tracks—resulting in effortless overdubs. What’s more, the painless setup and outstanding monitoring experience make it easy to jump into the creative space.
