DW 9000 XF BASS DRUM PEDAL

Take your footwork to the next level

DW makes the pedals to beat, and the new DW 9000 XF is no exception. The comfortable extended footboard pedal delivers outstanding flexibility and versatility for drummers of all levels. The 9000 XF comes outfitted with a dual-chain drive but also ships with an optional nylon strap. What's more, this pedal's Infinite Adjustable Cam provides a nearly endless range of playing sensitivity. Yet the DW 9000 XF is also tough enough to withstand the rigors of the road.
