FOR THE BEATMAN

With its limited-edition **Pearl Kapur Snare Drum**, the company introduced their first-ever all-Kapur model. Twice as dense as mahogany, Kapur is renowned for its dry overtones and full-bodied warmth, making the Pearl Kapur Snare Drum ideal for recording in close miking situations that pick up every nuanced detail. At the same time, this snare produces a delightful crack that cuts through any music. Pearl outfitted the Kapur snare with a pair of chrome SuperHoop II rims and an SR-017 strainer.
