

Special Gear Feature

FOR THE VOICE ACTIVATED

iZotope's **Nectar 2** adds new effects and processors to the original powerhouse vocal production suite. Tempting upgrades include a harmony module and spot-on emulation of an EMT 140 Plate Reverb module with vintage preamp saturation. Seven new effects provide plenty of creative options to spice any mix, and general enhancements such as advanced metering and an improved user interface make Nectar 2 a breeze to use. Plus the Nectar 2 comes with a vastly expanded preset library.
