BASS WITHOUT BOUNDARIES

The **Ibanez BTB1406E** bass takes everything bass players love about the BTB series to a whole new level. The premium wood six-string meets the demands of virtuoso performers but is accessible for regular bass players, too. A pair of Nordstrand Big Single pickups offers an extended range with clarity and expression, and the highly adjustable three-band EQ serves up total tone-tweaking freedom. And thanks to its seven-piece neck and string-isolating Mono-rail IV bridge, the feel and stability of the BTB1406E are second to none.
