MULTIPURPOSE MULTIPAD

The **KAT Percussion KTMP1 Multipad** combines simplicity with impressive flexibility offering drummers of all skill levels a creative way to practice and play. The four-zone high-quality drum sounds offer inspiration you won't find in a standard practice pad. But it's also an excellent expansion to an acoustic kit, offering drummers a wide selection of percussion sounds. Plus, there are pedal inputs for a kick-drum trigger and a hi-hat controller, which can turn the affordable KTMP1 into the ultimate grab-and-go cocktail kit.
