The instruments, gear and gadgets that will warm your heart and deafen your neighbors in the new year

PEARL E-PRO LIVE

HIT SOMETHING

When you're stuck inside with cabin fever on a cold winter's day, take out your frustrations by laying down some funky beats. Pearl recently entered the electronic drumset market in a big, bad way with the e-Pro Live. The set looks like an acoustic set, because it is one if you want it to be—just put ordinary drum heads on and play away. Or put on Pearl's Tru-Trac electronic drum heads and get access to 1,000 high-definition sounds. If that's still not enough, Pearl has teamed with FXpansion, Steven Slate Drums, Toontrack and Tapspace Publications to allow the e-Pro Live to use sounds from all those companies.
