SKB R106 RACK CONSOLE & AV-8 19" AV RETRACTABLE AV SHELF

Your screen saver

FOR: Saving space and keeping your laptop safe. The R106's 10U slanted top rails are perfect for a rack-mounted mixer, while the 6U front facing rails are ideal for your power conditioner, signal

processors and rack-mounted wireless units. Dual side-access cable ports make for speedy set-ups and the TSA-approved locks keep your gear safe under lock and key. In under a minute we mounted the AV-8 19" AV Retractable AV Shelf to the top rails, creating solid footing for our laptop. If remote recording is your thing, this ensemble sports both a small footprint and plenty of space for rack gear and cable storage.

NOT FOR: Your big-screen TV.
