DOREMIR SCORECLEANER**Score big**

ScoreCleaner is a time-saving program designed to turn MIDI performances or files into musical notation. From the simplest arrangements to the most complex, this program has a host of features that will enable you to craft tidy scores. For songwriters working with hired musicians, this is an exceptional resource for creating charts, even if you can't play to a click track. ScoreCleaner is also perfect for music educators and students looking to create and share printer-friendly scores that can be easily modified or transposed with a few clicks of your mouse. Simply connect your favorite MIDI device, launch ScoreCleaner, and you're ready to create savvy scores. ScoreCleaner can also turn your favorite MIDI sequences into charts, making it an ideal tool for producers.
