SKB 3I-4217-18T DREADNOUGHT ACOUSTIC GUITAR CASE

Dread not with this case

Tired of gigbagging around? SKB's military spec, waterproof Dreadnought case is worth checking out. Talk about tough! When we subjected it to our brutal trampoline test, its polypropylene copolymer resin shell and molded-in hinges easily withstood all the abuse we could throw at it. But this 3i Series case isn't just tough, it's luxurious, too. It features a set of extra-deep cubbies for your essentials plus snap-down rubber handles, recessed wheels and a set of TSA compliant locks to make traveling with your Dreadnought as painless as possible.
