JamHub GreenRoom: Silent Rehearsal Room

Not all of us have the luxury of owning a soundproof rehearsal room. But with the **JamHub GreenRoom** your band can rehearse nearly anywhere and never have to deal with annoyed neighbors. The GreenRoom offers musicians and vocalists their own input channel for their instrument or microphone. Plus, you can dial up the headphone mix you want to hear, complete with effects to keep the sound from getting sterile. Up to seven musicians can plug in at once, and you can record your rehearsal to your computer using the USB output.

'Not all of us have the luxury of owning a soundproof rehearsal room. With the JamHub GreenRoom your band (up to seven musicians can plug in at once) can rehearse nearly anywhere, and you can record your rehearsal to your computer using the USB output.'
