## Toontrack EZkeys, EZdrummer, and EZmix 2: EZ Does It

When the muse strikes, you need instant access to tools that will feed your creativity—and that's where Toontrack's amazing software comes into play. **EZkeys** and

**EZdrummer** provide not only great virtual instruments to play back

your parts—piano and drums—but also extensive libraries of loops to build songs and arrangements. EZkeys goes further by allowing you to experiment with chord progressions and arrangement ideas, then export to your DAW. **EZmix 2** works on the recording end of the process, letting you instantly create awesome sounding mixes. There are pre-designed effects chains and channel strips for instruments and vocals, just load 'em and go—it's a mixing engineer, mastering engineer and guitar-bass amp simulator all wrapped in one super-easy to use program.
